HIERARCHY OF GREEN SPACE:

ALL TOGETHER LOTS

GIVE AN AGEING INFRASTRUCTURE A NEW LEASE ON LIFE
to transform the underside of I-10 as a connecting space rather than a barrier
to give generous and equal access to nature
to manage storm water runoff with varied ecological devices
to gather, meet and socialize in pocket parks

USE VACANT LOTS AS IMPROVEMENT OPPORTUNITIES

1 MILE

NOLA IN ITS HEYDAY KATRINA'S FAUL T GROWING 'WILDER' VACANT LOTS FOR A COMMUNITY GATHERING

opportunities offered by Tulane-Gravier's mosaic of underexploited
oriented developpement relies on the ecological and social
end of the historic Bayou St John's canal. At its core, this people
initiating an
innovation, a resilient,
for the sustainable regeneration of the Tulane-Gravier neighborhood. By
proposes a new model for
